After that date, the installation was guarded only by 25 KVP who wore red-bordered black epaulets and who were daily relieved at noon by soldiers who arrived by truck, probably from Berlin.

Comment. the buildings in the Strausberg area were scheduled for completion in August and September 1954. As some of the buildings at Strausberg airfield were scheduled to be completed as early as 1 May 1954, it is possible that elements of the Ministry of the Interior/KVP, moved into the above buildings. The KVP units observed in the barracks installation south of Strausberg railroad station and in the former Erziehungsanstalt in Strausberg have not yet been identified.
